

Beef Tubs

The Cana-Lix Beef Lick Tubs have been designed to be fed free-choice to beef cattle along with an adequate amount of forage and free choice salt. They have been formulated to provide an excellent source of protein, energy, minerals and vitamins in a 200lbs lick tub. The consumption of these lick block supplements is expected to be between 100-200 grams per head per day. We recommend one tub per 20-30 head in the pen/pasture.

Our Beef Tub line currently includes the following options:

- Beef MAX 18% Breeder Chelated Tub
- Beef MAX 18% Breeder Chelated Tub with Garlic
- Beef Pasture Plus 32% Tub
- Beef Eco 7% Mineral and Salt Tub
- Beef Corn Grazer 30% Tub
- Beef 18% Medicated Tub (Bovatec)

Sheep Tubs

The Cana-Lix Sheep 21% Lick Tub is formulated with all-natural proteins. This lick tub is designed to be fed free-choice to sheep alongside an adequate supply of roughage or forage, unlimited clean water, and free-choice salt. It provides an excellent source of protein, energy, minerals, and vitamins. Expected consumption is 0.20 to 0.35 kg per head per day, though intake will vary based on breed, body size, condition, and physiological stage. Ensure an adequate number of blocks are provided per group to maintain consistent consumption. Available in 125 and 200lb tubs.

Horse Tubs

The Cana-Lix 15% Horse Lick Tub is formulated with all-natural proteins. This lick tub is designed to be fed free-choice to horses alongside high-quality forage or pasture, clean water, and free-choice salt. It contains 20 mg/kg of biotin to support healthy hooves, coat, and skin, along with essential vitamins and minerals. Target consumption should be managed to 0.5 to 1.0 kg per head per day, depending on body weight and maturity. Available in 125lb tub or 40lb pail.
